### WAYFINDING SIGNS

If you've driven around town lately, you have probably noticed the newly revealed wayfinding signs. There are 16 total signs, strategically placed to guide both residents and visitors to important public places like Town facilities, shopping, parks, and Chamber of Commerce. Not only do the signs direct motorists, they also emphasize the town's branding and colors and create a sense of place.

### NEW STAFF MEMBER

Matt Watterson, CZO, recently joined the Town of Knightdale Development Services Department. He brings 6 years of experience in the planning field, and has worked in both the public and private sectors in code enforcement, community and transportation planning, and sustainability and livability research. Matt attended East Carolina University and received a B.S. in Urban and Regional Planning with a minor in Political Science and an M.A. in Geography with a focus on GIS and Sustainable Tourism. We are excited to welcome Matt and he will be a great addition to our team!

### KNIGHTDALE STATION ART

Knightdale Investors, LLC recently installed public art in the roundabout located on Carolinian Avenue in Knightdale Station. The railroad spike installation is titled *Henry Knight's Vision* and is a great reminder of Knightdale's railroad-centered past.

### **PROJECT INFORMATION**
